REMARKS

Favorable consideration of this application in light of the following amendments and discussions is respectfully requested.

Claims 1 and 3-9 are presently pending in this application.

In the outstanding Office Action, the drawings were objected to because of informalities. However, Claims 1 and 3-9 were indicated as allowed.

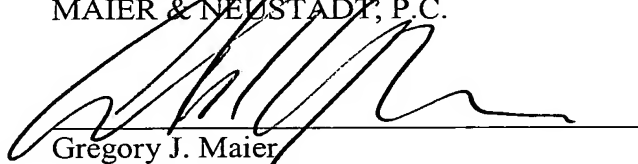

First, Applicant acknowledges with appreciation the indication that Claims 1 and 3-9 have been allowed.

In response to the objection to the drawings, submitted herewith is a separate LETTER SUBMITTING REPLACEMENT DRAWING SHEET(S), submitting for approval changes to Figs. 3, 10, 13-15 and 17-19. Specifically, Reference Numeral "90" in Fig. 3 has been removed to overcome the objection in the Office Action. Additionally, in Figs. 13-15, Reference Numeral "90" designating an inner component has been changed to "195;" in Fig. 10, Reference Numeral "12b" designating a second holder has been corrected to "121b;" and in Figs. 17-19, Reference Numeral "120" designating an open and close handle has been changed to "125." The specification has been amended accordingly.

In light of the prior indication of condition for allowance and in view of the amendment presented above, no further issues are believed to be outstanding, and thus the present application is believed to be in condition for formal allowance. If, however, the Examiner disagrees with any of the amendments submitted above, the Examiner is invited to telephone the undersigned who will be happy to work in a joint effort to resolve any outstanding issues and expedite the prosecution of this application. Applicant respectfully requests an early and favorable action.

Respectfully submitted,
